This newsletter is for you, the Staff of Yugul Mangi Council. If you have stuff happening or would like to include something, please see Andrei, Daphne, Megan or Anna in the Council Office.

Reminder:

Ngukurr is using 1.3 million litres of water each day. Power&Water have asked us to reduce this by about half – or to 800,000 litres a day. If you see a tap running, please turn it off! Please help us reduce water waste. Power&Water have warned that they will introduce water meters unless we lift our game! They say it is expensive to pump the water from the bores and river and there are high maintenance costs.
